ORIGINAL TIMBER CO

Mission

We salvage, mill and craft each one-of-a-kind piece right here, in the Bay Area. By focusing on one piece at a time, we are able to uncover the intricacy of each knot and grain. Our team of skilled makers devote time, attention and care at each stage of the process with the goal of delivering a quality product for you to treasure for generations to come.

For over 10 years, we've been committed to sustainable and ethical manufacturing practices and are proud to continue our heritage of excellence. As new materials and processes arrive, we are at the forefront of socially responsible product development. Our supply chain partners have been chosen based on these shared values and common commitments.

When you buy from Original Timber, you showcase your commitment to sustainability, the Bay Area community, and one-of-a-kind craftsmanship.

A blurred interior of a timber shop. The scene is filled with various wooden planks, beams, and furniture. In the foreground, a modern desk lamp with a long, thin arm and a rectangular light head is visible. The background shows a staircase on the left and a large wooden door or partition in the center. The lighting is warm and ambient, with several small spotlights visible on the ceiling. The overall atmosphere is rustic and professional.
